Database: MYSQL, MongoDB
Testing: Jest
Servers: Apache Tomcat, NPM
Software Tools: Jira, GitHub, Bitbucket, Postman, Confluence, IntelliJ, VS Code
Platforms: Linux, Windows, Mac
Cloud: AWS, Docker

PROFESSIONAL EXPERIENCE

Software Engineer, ValueLabs, Hyderabad, India

June 2020- June 2022

Client: Lifetouch, USA, CA

Technical Stack: HTML, CSS, JavaScript, ReactJs, Angular, Docker, Bootstrap, Sass, Material UI, Tailwind CSS

- Proficient experience building web applications from scratch using cutting-edge technologies like React.js
- Worked on projects like Lifetouch, Issue Management System, Incircle and few internal projects.
- Designed and developed an integration tool named "Issue Management System" using Angular for frontend and Spring Boot to develop Rest APIs that automates the recurring production issues, which extended revenue and helped to reduce more than 70% dependency on L3 support teams.
- Solved numerous production issues on the applications that have increased the application's efficiency by more than 50%. Worked on Agile environment with scrum methodology.
- Received client appreciation for solving long pending issues in the existing applications.

Intern, ValueLabs, Hyderabad, India

Dec 2019 - Mar 2020

Technology Stack: JavaScript, React

- Responsible for creating efficient design and developing user interaction screens using HTML, CSS3, JavaScript and React.
- Implemented API functionality with ReactJs library.
- Worked on GIT version control.
- Designed, developed, and test HTML, CSS, JavaScript, jQuery, and React.JS that meet accessibility and web browser standards.
- Worked on creation of reusable UI components for different applications.
- Effectively navigated conflict resolution, adaptability, working under pressure, time management and communication skills and teamwork.

EDUCATION

Master of Engineering, Computer Science

Apr 2023

University of Cincinnati, College of Engineering and Applied Sciences, Cincinnati, Ohio

GPA: 4

Coursework: Cloud Computing, Operating Systems, Advanced Algorithms

Bachelor of Technology, Information Technology

Mar 2020

Prasad V Potluri Siddhartha Institute of Technology, Vijayawada, India

GPA: 3.8

Coursework: Web Technologies, Data Structures, Software Engineering

ACADEMIC PROJECTS

Bank Accounts Analysis

Jan 2020 - Mar 2020

- To provide registration, login and all the basic transactions in a secure way. It has many other features like forget password, displays different categories of transactions like withdraw, deposit and providing loans.
- It includes both the UI screens along with the functionality and all also the database.
